Projects

System supporting the work of car detailing studios

Technologies used: React, Bootstrap, Node, Express

<https://github.com/Shidorin/TAB-project>

I took part in the development of a system that offers management of: accounts, resources and equipment, services. Website also offers the generation of reports on cost and number of performed services.

eBookshelf

Technologies used: React, mui, Node, Express, Sequelize

<https://github.com/Shidorin/eBookshelf>

Web application for browsing, reviewing, rating and cataloging books.

Hotel chain website

Technologies used: TypeScript, CSS, React, Redux

<https://github.com/Shidorin/hotel-project>

The front end of a hotel chain allows you to view the hotels of a hotel operator, book a date to stay at a specific hotel, and search for hotels by some criteria.

I agree to the processing of personal data provided in this document for realising the recruitment process pursuant to the Personal Data Protection Act of 10 May 2018 (Journal of Laws 2018, item 1000) and in agreement with Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data, and repealing Directive 95/46/EC (General Data Protection Regulation).
